PRIMAVERA P6 ADVANCED COURSE

This two-day course provides in-depth project management training in Primavera's client/server-based solution. Building off skills learned in the Fundamentals course, the Advanced course covers advanced subjects such as earned value analysis; updating baselines; and scheduling options. Hands-on workshops enable students to apply skills learned throughout the course.

Learning Outcomes:

- Modify projects using advanced functionality.
- Analyze projects using earned value.
- View Primavera data in other applications ie MS Excel.

Pre-requisite: Fundamentals Course

Course Length: 2 days

PMI PDUs: 10
